ADRIAN GOMEZ - WEB DEVELOPER

I am a web developer enthusiastic in all stages of web development. Knowledgeable in user interface, testing, and debugging processes. Bringing forth expertise in design, installation, testing and maintenance of web systems. Equipped with a diverse and promising skill-set. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

Skills

HTML / CSS / Javascript / MongoDB / Express / React / NodeJS / Jest / SASS / Bootstrap / Git

Projects

October 2019 - December 2019
Bugtracker → bugtracker.adrianindevelopment.com

- Designed a fullstack application that will help me in future web projects.
- Implemented different user authorizations.
- Used application during development phase to keep track of progress.

August 2019 - November 2019
Social Media Application → get-dev.adrianindevelopment.com

- Used the MERN stack for development of a fullstack application.
- Used bootstrap for the design and template.
- Designed API with a secure non-relational database.

July 2019 - August 2019
Chat Application → chat-app.adrianindevelopment.com

- Used NodeJS and socket.io for full design of a chat application.
- Added language filters.
- Able to share location using google maps.

Experience

February 2018 - Present
Code and Coffee Meetup - Host

- Hosted a web development meetup for 2 years, helping and learning from others.
- In conjunction with the meetup, I will regularly help other on an individual basis.
- Worked with many people, of different levels, on several small projects and challenges.

Education

- 2017 - Completed courses in HTML, CSS, JS, ReactJS, Git and SASS at codecademy.com
- 2018 - 2019 - Certificates from freecodecamp/Udemy in Javascript, React, and NodeJS.
- 2019 - Present - Continued development through use of documentation and practice.
